

**PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)**

August 23, 2022

**Subject: Switch Decommission, Switch Power Down**

**Carrier:** Georgia Windstream, LLC  
4001 North Rodney Parham Road, Little Rock, AR 72212

**Notice ID:** Network Change Notice SD Georgia 001 (Revised)

**Contact:** For additional information on the planned network changes, please contact:  
James Seegar  
Windstream  
1720 Galleria Blvd, Charlotte, NC 28270  
704-845-7466 or 704-728-2272  
James.Seegar@windstream.com

**Change Effective Date:** On or after February 23, 2023

**Planned Network Change(s) will occur at the following locations in Georgia:**

Windstream Central Office	Address	CLLI
Kensington, GA DMS10 Switch	17768 Hwy 193, Kensington, GA 30707	KETNGAXADS0
Kensington, GA Meta Switch	17768 Hwy 193, Kensington, GA 30707	KETNGAXAPS0

Website Link to Notice Posting: <https://www.windstream.com/about-windstream/legal/network-change-notifications> (Select State: Georgia)

**Additional Details:**

**Description of the Planned Network Change(s):**

The DMS switch, located at 17768 Hwy 193, Kensington, GA 30707, will be decommissioned, powered down, and removed from Windstream’s network as a result of network modernization and consolidation. All traffic will need to be routed to the KETNGAXAPS0 Meta Switch, located at 17768 Hwy 193, Kensington, GA 30707. Windstream KETNGAXADS0 A-Block of 706-539 is being moved to KETNGAXAPS0, A-Block of 762-550.

**Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the KETNGAXAPS0 Meta Switch or have existing trunk groups to that switch augmented. Carriers that are code

holders for access connectivity in the KETNGAXADS0 DMS switch will be required to reposition the codes to the KETNGAXAPS0 Meta Switch.

All ASRs for the KETNGAXAPS0 Meta Switch must be received no later than December 23, 2022, in order to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the KETNGAXADS0 DMS switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the KETNGAXADS0 DMS switch (on or after December 24, 2022). This will serve to guide interconnect re-routes of Windstream traffic for native codes currently served by the KETNGAXADS0 DMS switch to reflect the KETNGAXAPS0 Meta Switch as the new home switch. All ASRs for the KETNGAXAPS0 Meta Switch must carry the project code of KETNGAXAPS0.
