Additional Details:

Description of the Planned Network Change(s):

The DMS10 switch, located at 2 Pratt Ave, Chautauqua, NY, will be decommissioned, powered down, and removed from Windstream's network as a result of network modernization and consolidation. All traffic will need to be routed to the CHTQNYXAPS0 Meta Switch. Windstream A-Block of 716-357 is being moved to CHTQNYXAPS0.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the CHTQNYXAPS0 Meta Switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Chautauqua, NY DMS10 Switch will be required to reposition the codes to the CHTQNYXAPS0 Meta Switch.

All ASRs for the CHTQNYXAPS0 Meta Switch must be received no later than April 27, 2022 in order to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Chautauqua, NY DMS10 Switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Chautauqua, NY DMS10 Switch (on or after May 1, 2022). This will serve to guide interconnect re-routes of Windstream traffic for native codes currently served by the Chautauqua, NY DMS10 Switch to reflect the CHTQNYXAPS0 Meta Switch as the new home switch. All ASRs for the CHTQNYXAPS0 Meta Switch must carry the project code of CHTQNYXAPS0.
