**Additional Details:**

**Description of the Planned Network Change(s):**

The DCO switch, located at 205 W. Main St., Happy, TX, will be decommissioned, powered down, and removed from Windstream's network as a result of network modernization and consolidation. All traffic will need to be routed to the HPPYTXXAPS0 Meta Switch, located at 205 W. Main St., Happy, TX. In addition, Windstream Happy A-Block of 506-558 is also being moved to HPPYTXXAPS0.

**Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the HPPYTXXAPS0 Meta Switch or have existing trunk groups to that switch augmented. Carriers that are code

holders for access connectivity in the Happy, TX DCO switch will be required to reposition the codes to the HPPYTXXAPS0 Meta Switch.

All ASRs for the HPPYTXXAPS0 Meta Switch must be received no later than November 30, 2022 in order to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Happy, TX DCO switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Happy, TX DCO switch (on or after December 1, 2022). This will serve to guide interconnect re-routes of Windstream traffic for native code currently served by the Happy, TX DCO switch to reflect the HPPYTXXAPS0 Meta Switch as the new home switch. All ASRs for the HPPYTXXAPS0 Meta Switch must carry the project code of HPPYTXXAPS0.
