Pole Attachment - This term means any attachment by a CATV firm to a pole owned or controlled by the Company.

Cable Duct Space - This term shall mean individual cable ducts within a multiple-duct conduit system owned by the Company.

Joint User - All references herein to "joint user" shall mean a utility company or municipality which, together with the Company, jointly provides poles for common use in the provision of service of the respective entities, and shall also include a utility company or municipality which, together with the Company, owns a percentage of a pole, or which owns a pole upon which the Company has obtained exclusive use and control of specified space.

S1.3 Scope (Continued)

The franchises, consents, permits, licenses, easements and rights-of-way of the Company are for its own facilities and the provision of its other services. No rights in such franchises, consents, permits, licenses, easements or rights-of-way are conferred upon any CATV company hereunder.

S1.4 Application for Permission to Install

At least forty-five (45) days prior to the time the CATV company desires to attach its equipment to any of the Company's poles, or to install any such equipment within a cable duct of the Company, the CATV operator shall make written application on the form prescribed to the Company. The Company shall in turn, notify the CATV company in writing of its permission to allow the installation.

The CATV company shall complete each installation within a reasonable and mutually agreeable time frame; provided, however, that before commencing any such installation, the CATV company shall notify the Company of the time when it proposes to do such work sufficiently in advance so that the Company may arrange to have any necessary representative present when such work is performed. In the event the presence of a Company representative is required, the CATV company shall reimburse the Company for the cost and expense of such.

S1.4 Application for Permission to Install (Continued)

Where costs are involved in the rearrangement of the Company's facilities to accommodate the CATV company's equipment, the Company shall notify the CATV company, in writing, of the changes and rearrangements required and the cost for performing such. Approval of the application by the Company is subject to receiving authorization from the CATV company to make changes and rearrangements detailed by the Company, at the CATV company's expense.

The CATV company shall not have the right to place, nor shall it place, any additional equipment upon any pole or in any cable duct without first making application to do so, as provided for in this tariff; nor shall the CATV company change the position of any equipment attached to any such pole or installed in any cable duct without the Company's prior written approval. The Company will not refuse a CATV company permission to install or rearrange CATV equipment if pole attachment or conduit space is available or can be made available, except for safety reasons. The provisions of this paragraph shall not restrict the attachment of television drops to television crossarms or television cable messenger. Unauthorized attachments or installation in cable duct shall be subject to penalty and/or special "make-ready" charges set forth in this tariff.

S1. CATV POLE ATTACHMENT AND CABLE DUCT ARRANGEMENT

S1.6 Installation and Maintenance of CATV Equipment

The exact location of the CATV company's attachments on poles and installation in cable ducts shall be determined by the Company in its sole discretion after a joint survey to be made, at such times as shall be mutually agreed upon, by representatives of the telephone company and the CATV company. The Company may make periodic inspections as conditions may warrant. Such inspections shall not operate to relieve the CATV company of any responsibility, obligation, or liability assumed under this tariff. When substandard installations are found which are created by the CATV operator, the Company shall give notice of such to the CATV company, and the CATV company shall remedy such conditions within a reasonable time. In the event the CATV company fails to remedy the condition within the agreed upon time, the Company may act to remedy it with the cost of such to be paid by the CATV company.

Whenever CATV equipment is to be installed, rearranged or removed on or from Company poles, such work will normally be performed by the CATV company at its expense. In such cases a Company representative may be required to observe the work, at the expense of the CATV company. Where consented to by the Company, the CATV company may elect to have such installation, rearrangement or removal performed by the Company; however, the CATV company will furnish all materials and equipment and will reimburse the Company for its costs in performing the work activity.

Whenever CATV equipment is to be installed, rearranged or removed in cable ducts, such work will usually be performed by the Company, at the CATV company's expense. If the CATV elects to perform the work activity, a Company representative may be required to observe the work at the expense of the CATV company. Work performed by the Company or the CATV firm, shall be performed in accordance with the Company's established practices, and all materials and equipment shall be supplied by the CATV company.

S1.6 Installation and Maintenance of CATV Equipment (Continued)

Where the CATV company's equipment can be accommodated on Company poles or in Company cable ducts by rearranging or changing the Company's facilities, the CATV company shall pay the Company in advance the cost of making such rearrangements or changes. Strengthening of poles (guying) required to accommodate the attachments of the CATV company and the bonding of the CATV's strand to that of the Company shall be performed by the CATV company at its sole risk and expense. Such work may be performed by the Company when reasonable cause therefore exists, and the CATV company shall pay the Company in advance the cost of all such work.

After initial attachment, when the Company subsequently requires a change in its poles, attachments thereto or its conduit system for reasons unrelated to CATV operations, the CATV company shall be given reasonable notice of the changes required and sufficient time to accomplish the CATV related change. If the CATV operator is unable or unwilling to meet the Company's time schedule for changes in attachments, the Company may do the work and charge the CATV company its reasonable costs for performing the change of CATV equipment. In cases of emergency, the Company may, at the CATV company's expense, arrange to relocate or replace the facilities attached to Company poles by the CATV operator, transfer them to substituted poles or perform any other work in connection with said facilities that may be required in the maintenance, replacement, removal, or relocation of said poles, the facilities thereon or the equipment which may be placed thereon.

All required maintenance of CATV equipment shall be performed by the CATV operator. No entry shall be made into any facility housing or cable ducts without the prior written permission of the Company. The Company reserves the right to require the presence of its representative at the time of any such entry, with the cost thereof to be reimbursed by the CATV company. An estimate of such cost shall be furnished at the time the Company gives its written permission for entry.

S1.6 Installation and Maintenance of CATV Equipment (Continued)

All tree trimming required on account of CATV company equipment shall be done by the CATV operator at its sole risk and expense and in a manner satisfactory to the Company.

The CATV company shall, at its sole risk and expense, maintain all of its equipment on Company poles or in Company cable ducts in safe condition and in thorough repair.

Nothing herein contained shall give to the CATV company the right to place a crossarm on any Company pole. If a crossarm is required to accommodate the facilities of the CATV company, the CATV company shall state the reasons in its application for attachment.

Written consent of the Company must be obtained by the CATV company prior to any additions to, or changes in the location of its attachments on poles or equipment in cable ducts, except in cases of emergency when oral permission has been obtained from the Company and subsequently confirmed in writing.

If the CATV company should require the location of its equipment upon any public thoroughfare or other public or private property in the conduct of its business and the Company does not have pole facilities so located to fulfill CATV requirements and has no immediate need for such for the Company's own use, the Company will notify the CATV operator whether the Company is willing to place such pole facilities. Special rates shall be agreed to by the CATV company prior to the Company's placement of such pole facilities, and the rates specified herein shall not apply. The special rates shall be based upon the total use of the pole facilities by the CATV company. In the event such pole facilities are subsequently used by the Company for the provision of its other services, the special rates shall no longer apply, and the rates specified in this tariff shall apply.

S1.6 Installation and Maintenance of CATV Equipment (Continued)

Whenever, pursuant to this tariff, the CATV company shall be required to remove its equipment from any pole, such removal shall be made within a reasonable time unless safety considerations require immediate action. Upon failure of the CATV company to remove such equipment, the Company may make the removal and charge the CATV company all associated costs.

Whenever, pursuant to the tariff, CATV equipment in cable ducts shall be required to be removed, relocated or replaced, such work will usually be performed by the Company, after written notice to the CATV company, at the CATV company's expense. If the CATV company elects to perform the work, a Company representative may be required to observe the work at the expense of the CATV company. Any CATV equipment required for such work performed by the Company or the CATV firm, shall be supplied by the CATV company.

The CATV company shall not interset poles or locate guys or other facilities in pole lines of the Company, except where the CATV company has appropriate right-of-way and such will not inhibit access to poles and facilities of the Company or cause a safety hazard.

S1.7 Cost of Pole Replacements

Whenever the CATV company applies for permission to attach to a pole that is considered by the telephone company to be insufficient in height or strength for accommodation of CATV attachments, the Company shall notify the CATV operator of such fact and of the estimated cost to the CATV company of replacing such pole with a pole which will accommodate the attachments of the CATV company and the telephone company. Within thirty (30) days of such notification, the CATV company shall either notify the Company (1) of its approval of such replacement or (2) of its cancellation of the application with respect to such pole.

In the event of CATV's approval of such replacement, the Company shall replace the pole and the CATV operator shall pay to the Company in advance the charges computed as follows:

S1.8 Rights of Way and Legal Authority

Upon application for attachment or use of cable ducts, the CATV company shall submit evidence satisfactory to the Company of its authority to erect and maintain its equipment within public streets, highways, and other thoroughfares and shall secure any necessary franchise, license, permit, consent, easement or rights-of-way from Federal, State or municipal authorities or owners of property now or hereafter required to construct and maintain such equipment at the location of facilities of the Company which it desires to use. The CATV company shall indemnify, protect, and hold harmless the Company from and against any and all claims for libel and slander, copyright and/or patent infringement arising by reason of attachment of CATV equipment to Company poles or installation of CATV equipment in Company cable ducts, pursuant to this tariff.

S1.10 Limitations

No use, however extended, of the Company's poles or cable ducts under this tariff shall create or vest in the CATV company any ownership or property right in said poles or ducts. The Company reserves to itself, its successors and assigns the right to maintain its poles and conduit and to locate and operate its facilities in such manner as will best enable it to fulfill its other public service requirements. S1.13 Payment of Bills

All amounts payable by the CATV company to the Company under the provision of this tariff shall, unless otherwise specified, be payable within thirty (30) days after presentation of bills. Non-payment of any such amounts when due shall constitute grounds for termination of the pole attachment and cable duct usage rights under this tariff.

S1.14 Termination of Attachments and Cable Duct Usage

If the CATV company shall fail to comply with any of the provisions of this tariff, including compliance with the specifications previously referred to, the maintenance of required insurance coverage and surety bond requirements, and the timely payment of any amounts due, and shall fail for thirty (30) days after written notice from the Company to correct such non-compliance, the Company, at its option, may terminate the CATV company's right to continue any or all use of poles or cable ducts provided under this tariff and may act to remove the CATV equipment at the CATV company's expense.

1. PARTIES.

This Pole Attachment License Agreement (“Agreement”) is entered into as of the date last signed by all the parties (“Effective Date”) by and between Windstream Kentucky East, LLC, a Windstream company organized and existing under the State of Kentucky (“Licensor”) and _____, a company organized and existing under the State of _____ (“Licensee”). Licensor and Licensee may sometimes be referred to in this Agreement individually as a “party” and collectively as the “parties”.

2. SCOPE.

A. The purpose of this Agreement is to set forth the rates, terms, conditions, and procedures under which the Licensor will provide Licensee access to Licensor’s Poles (as defined herein) in the State of Kentucky for the purpose of Licensee attaching wireline facilities.

B. The parties acknowledge that Licensor is entering into this Agreement because Licensee has represented it is a regulated "telecommunications carrier" or “cable television system” provider as such terms are defined in the Communications Act of 1934, as amended (hereinafter the "Communications Act") and desires to provide telecommunications service or cable service (“Services”), as defined in the Communications Act; and that Licensee is authorized to provide these Services under its franchise or other lawful authority within its service area where Licensor owns Poles. In the event Licensee no longer has the status as a “telecommunications carrier” or “cable television system” provider or the authority to offer these Services in the state where the Poles are located, Licensor shall have the right to immediately terminate this Agreement and require Licensee to remove all of its facilities from Licensor’s Poles. **As a condition precedent to entering into this Agreement, Licensee shall submit to Licensor a copy of its certification evidencing its status as either a regulated telecommunication carrier or cable television system provider, and until such documentation is provided to Licensor, Licensor shall not be obligated to enter into this Agreement.**

C. Subject to the provisions of this Agreement, Licensor will issue to Licensee for any lawful communications purpose, revocable, nonexclusive Licenses authorizing the placement of Licensee's Attachment to Licensor's Poles.

2. SCOPE (Cont'd.)

D. No use, however extended, of Licensor's Poles nor payment of any fees or charges required under this Agreement or License issued under this Agreement shall create or vest in Licensee any ownership or property rights in said Poles, but Licensee's rights therein shall be and remain a mere license. Nothing herein contained shall be construed to compel Licensor to construct, retain, extend, place, or maintain any facilities not needed for its own service requirements, unless otherwise required by law. Nothing contained in this Agreement or in any License issued hereunder shall in any way affect, restrict or impair the right of Licensor to convey, transfer, mortgage, or assign to any other person or entity any interest in real or personal property, including any Poles in which Licensee has attached or placed Licensee's Attachments pursuant to Licenses issued under this or other license agreements.

E. Licensee recognizes that Licensor has entered into, or may in the future enter into, agreements and arrangements with others which are not a party to this Agreement regarding the Poles covered by this Agreement. Nothing herein contained shall be construed as a limitation, restriction or prohibition against Licensor with respect to such other agreements or arrangements. The rights of Licensee shall at all times be subject to any present or future joint use or joint ownership arrangement between Licensor and any other party.

F. **This Agreement does NOT create any right for Licensee to access or place facilities in Licensor central offices, conduit or to place wireless communication equipment on Poles. A separate agreement is required for any access to Licensor facilities other than those outlined in this Agreement.**

Licensee shall provide sufficient information on the Exhibit B-1 Application to enable Licensor to determine that the request involves only Simple Make-Ready, to locate the proposed Pole(s) impacted and to identify the physical characteristics of Licensee's facilities to be attached to Licensor's Pole(s) so that Licensor can confirm that the attachment(s) may be completed through Simple Make-Ready. Upon receipt of an Exhibit B-1 Application, Licensor shall have ten (10) days to ensure whether it is complete. If the Exhibit B-1 Application is incomplete, Licensor will return the Exhibit B-1 Application to Licensee along with an explanation detailing how it is deficient. For Exhibit B-1 Applications that are complete, Licensor has thirty (30) days from receipt of the Exhibit B-1 Application to review and approve or reject the Exhibit B-1 Application. Upon Licensor's approval of an Exhibit B-1 Application, Licensee will be considered to have been granted a License and may attach to Licensor's Pole(s) in accordance with the terms and conditions of this Agreement. c. Licensee shall be responsible at all times for the condition of Licensee's Attachments and its compliance with the requirements, specifications, rules, regulations, ordinances and laws specified in this Agreement. Licensor shall have no duty to Licensee to inspect, monitor or maintain the condition of Licensee's Attachments (including, but not limited to, splices and other facilities connections) located on, within or in Licensor's Poles. Licensor may make periodic or spot inspections at any time of any part of Licensee's Attachments as Licensor determines reasonable or necessary in its sole judgment, pursuant to Section 16 of this Agreement.

11. CONSTRUCTION AND MAINTENANCE (Cont'd.)

d. Licensee shall not authorize any person or entity acting on Licensee's behalf ("Licensee Contractor") to perform any work on, within or in Licensor's Poles without first verifying, to the extent practicable, on each date when such work is to be performed and, that the condition of the Poles is suitable for the work to be performed. If Licensee or Licensee Contractor determines that the condition of the Poles is not suitable for the work to be performed, Licensee shall notify Licensor of the condition of the Poles in question and shall not proceed with construction activities until Licensee is satisfied that the work can be safely performed.

e. Licensee shall be solely responsible for paying all persons and entities that provide materials, labor, access to real or personal property, or other goods or services in connection with the construction and placement of Licensee's Attachments and for directing the activities of all Licensee Contractors while they are physically present on, within or in the vicinity of Licensor's Poles. Licensee shall not permit any mechanic's lien, material man's lien, or any other lien, claim or security interest to attach to or encumber any of Licensor's real or personal property at any time.

f. Licensee's main line Attachments shall be tagged at maximum intervals of 300 feet so as to identify Licensee as the owner of the Attachment. Licensee shall place fiber wrap/ID at the specific Licensor Poles attaching point and at any aerial span splice location and/or slack loop. The tags shall be of sufficient size and lettering so as to be easily read from ground level.

12. OVERLASHING

a. Licensee may, upon notice to Licensor, overlash its own existing authorized Attachment and this does not constitute a separate Attachment, as it relates to the billing of Pole Attachment Fees, unless multiple/separate Attachment points are physically made at the Poles itself outside of the scope of a single Attachment. Such notice shall be in the form of an Exhibit B Application for Pole License, and any additional Attachments being installed on Poles, regardless of it being an overlash of existing Attachment or as a new Attachment, will require an engineering analysis to determine if the additional loading negatively impacts the Poles capacity. Any additional load which causes the Pole to exceed its rated capacity or no longer provides for ample ground clearance of the Attachments or other facilities will necessitate the need for the Licensee to pay any and all Make Ready Work necessary. Each overlash strand shall not exceed a 2" maximum diameter.

b. In no event shall Licensee allow a third party to overlash to Licensee's Attachments without prior notice to and consent from Licensor. Any third party must execute a License Agreement with Licensor and obtain a license thereunder.

13. MODIFICATIONS, ADDITIONS, REPLACEMENTS OR REARRANGEMENTS

a. Licensee shall not modify, overlash, add to, or replace Attachments on any Poles without first notifying Licensor in writing of the intended modification, addition or replacement at least thirty (30) days prior to the date the activity is scheduled to begin. The required notification shall include:

- 1. the date the activity is scheduled to begin including the Pole location and Pole number,
- 2. a description of the planned modification, addition, or replacement,
- 3. a representation that the modification, addition, or replacement will not require any space other than the space previously designated for Licensee’s Attachments, and
- 4. a representation that the modification, addition, or replacement will not impair the structural integrity of the Poles involved.

b. Upon Licensor’s receipt of a complete Exhibit B Application for Pole License, Licensor will perform, at Licensee’s sole expense, a field check and if Licensor determine that the modification, addition, or replacement specified by Licensee in its notice will require more space than that allocated to Licensee or will require the rearrangements of, reinforcement of, replacement of, or an addition of support equipment to the Poles involved in order to accommodate Licensee’s modification, addition, or replacement, Licensor will so notify Licensee and the parties will follow the Make-Ready Work process as set forth in Section 8 of this Agreement in order to obtain authorization for the modification, addition, or replacement of its Attachments.

c. Should Licensee request Licensor to expand capacity or purchase additional plant and should Licensor so agree, Licensee agrees to pay all cost and expenses thereby incurred by Licensor. If another party that has been granted a license joins in the request and will benefit from the expansion or purchase, Licensee agrees to pay a percentage of all costs proportionate to Licensee’s share of the benefit received from the expansion or purchase, but Licensee shall be responsible for all costs and expenses not paid by the other party.

13. MODIFICATIONS, ADDITIONS, REPLACEMENTS OR REARRANGEMENTS (Cont'd.)

d. When multiple applications, including those of Licensee, are received by Licensor with respect to any Poles which must be replaced or rearranged to provide additional space prior to commencement of the work on such Poles, Licensor's facilities may need to be transferred in which case Licensee shall pay for all costs for such transfers.

e. In the event Licensor plans to modify or alter any Poles upon which Licensee has placed Attachments, Licensor, except in emergency situations, shall provide Licensee written notice of the proposed modification or alteration at least sixty (60) days prior to the time the proposed modification or alteration is scheduled to take place. Should Licensee decide to modify or alter Licensee's Attachments on Poles, Licensee shall so notify Licensor in writing at least thirty (30) days prior to the day the work is to begin. In such event, Licensee shall bear a proportionate share of the total costs incurred by Licensor to make Licensor Poles accessible.

f. In the event it becomes necessary for Licensor, Licensor's subsidiary or affiliate or any other entity in which Licensor hold an interest, or another utility with whom Licensor has a prior agreement for pole attachments, to use the space on a Pole occupied or to be occupied by Licensee's Attachments, Licensee shall, upon receipt of sixty (60) days notice, either vacate the space by removing its Attachments at its own expense or if Licensor decides to replace the Pole with a larger pole that can accommodate Licensee's Attachments, bear the expense of such replacement and transfer its Attachments to the new pole.

g. In the event Licensor is required to move the location of, or replace, any Licensor Poles for reasons beyond its control, Licensee concurrently shall relocate Licensee's Attachments. Licensee shall be solely responsible for the costs of the relocation of Licensee's Attachments. When it is mutually agreed that it is in the best interest of Licensor and Licensee, Licensor may, after proper notification has been provided, transfer Licensee's Attachments at the same time that Licensor transfers its facilities and shall invoice Licensee for the actual costs incurred in performing the transfer of Licensee's Attachments.

14. EMERGENCY RESTORATION

a. In the event of an emergency, restoration procedures may be affected by the presence of Licensee's Attachments. While Licensor shall not be responsible for the repair of damaged Attachments, Licensor shall nonetheless control access to its Poles if the restoration is to be achieved in an orderly fashion.

b. Where Licensor and Licensee are involved in emergency restorations, access to Licensor's Poles will be controlled by Licensor according to the following guidelines.

1. Service Disruptions/Outages

- a) While exercising its right to first access, Licensor shall make all reasonable efforts to grant access to as many other entities with attachments as is reasonably safe.
- b) Where simultaneous access is not possible, Licensor will grant access on first come, first served basis.

2. Service Affecting Emergencies

- a) While exercising its right to first access, Licensor shall make all reasonable efforts to grant access to as many other entities with attachments as is reasonably safe.
- b) Where Licensor is unable to grant simultaneous access to all other entities with attachments, access will be granted according to the level of damage to the attachments of each entity and the likelihood that a given level of damage will result in service disruption. Where the likelihood that a service disruption will result is not clearly discernible, access will be on a first come, first served basis.

c. Without limiting any other indemnification or hold harmless provisions of this Agreement, Licensee agrees that any decision by Licensor regarding access to its Attachments, or any action or failure to act by Licensor, under this section shall not be the basis for any claim by Licensee against Licensor for any damage to Licensee's Attachments or disruption of Licensee's Services, or any other direct or indirect damages of any kind whatsoever incurred by Licensee.

15. FAILURE TO PLACE ATTACHMENTS

Once Licensee has been issued a License, Licensee shall have ninety (90) calendar days from the date of the License was issued to begin the placement of its Attachments on the Licensor Poles covered by the License. If Licensee has not begun placing its Attachments within the ninety (90) day period, Licensee shall so advise Licensor with a written explanation and notice for the delay. If Licensee fails to advise Licensor of its delay by notice thereof or if Licensee fails to act in good faith by not making a bona fide effort to begin placing its Attachments within the ninety (90) calendar days prescribed by this section, the License shall be automatically rescinded by Licensor and deemed null and void, and Licensee shall have no further right to place the Attachments pursuant to such voided License.

16. ABANDONMENT

Nothing in this Agreement shall prevent or be construed to prevent Licensor from abandoning, selling, assigning, or otherwise disposing of any Poles. Licensor shall notify Licensee of any sale, assignment, or other disposition of any Poles or other Licensor property used for Licensee's Attachments.

17. INSPECTIONS AND INVENTORIES

a. Post construction and/or periodic inspection of Licensee Attachments. Licensor shall have the right, but not the obligation, to make a post construction inspection and periodic inspections at any time of any part of Licensee's Attachments on Poles and any other associated facilities for the limited purpose of determining whether Licensee's Attachments are in compliance with the terms of this Agreement and any Licenses issued hereunder and in the case of Simple Make-Ready, whether Licensor's Attachments were moved in compliance with the Simple Make-Ready specifications attached to this Agreement as Exhibit G, incorporated herein, and in accordance with the same standards and practices followed by Licensor or Licensor's Contractors. Such inspections shall be conducted at Licensor's expense with the exception of (1) a post construction inspection, (2) follow-up inspection to confirm remedial action after an observed Licensee violation of the requirements of this Agreement; and (3) inspection of Licensee Facilities in compliance with a specific mandate of appropriate governmental authority, for which inspections the cost shall be borne solely by Licensee. Licensee will be responsible for all costs associated with bringing any of Licensor's Attachments that were moved by Licensee into compliance if they are found to be out of compliance with the Simple Make-Ready specifications attached to this Agreement as Exhibit G or with the standards and practices followed by Licensor or Licensor's contractors.

17. INSPECTIONS AND INVENTORIES (Cont'd.)

b. **Inventories.** Upon written notice to Licensee, the total number and location of Licensee's Attachments on Licensor's Poles may be determined, at Licensor's discretion, through a survey which may be made not more than once per calendar year by Licensor. If so requested, Licensee and /or any other entity owning or jointly using the Poles with Licensor may participate in the survey. The costs incurred by Licensor to conduct the survey shall be reimbursed to Licensor by Licensee upon demand by Licensor regardless of whether or not Licensee participates in the survey. If the Attachments of more than one licensee are surveyed, each such licensee shall contribute a proportionate share of the costs reimbursed to Licensor.

c. **No Duty to Licensee.** Neither the act of inspection or survey by Licensor of Licensee's Attachments nor any failure to inspect such Attachments shall operate to impose on Licensor any liability of any kind whatsoever or to relieve Licensee of any responsibility, obligations or liability under this Agreement, any License issued hereunder, or applicable law, or to any third-party contractor, Licensee Contractor, or otherwise.

18. UNAUTHORIZED ATTACHMENTS

a. If any Licensee Attachment shall be found on Poles for which no License has been granted by Licensor pursuant to the terms of this Agreement ("Unauthorized Attachment"), Licensor, without prejudice to its other rights or remedies under this Agreement or otherwise, may:

1. impose charges as set forth herein, and
2. require Licensee to remove such Unauthorized Attachment or Licensor may remove such Unauthorized Attachment without liability and the expense of removal shall be borne by Licensee.

b. For the purpose of determining the charges, Licensee shall pay an amount per Unauthorized Attachment equal to the Pole Attachment Fee that would have applied if Licensee had properly obtained a License based upon the then current Attachment Rate for the number of years the Unauthorized Attachment have existed (or, if that cannot be determined, the number or years since the most recent inventory or five (5) years, whichever is less), plus interest at a rate the greater of 1.5% per month or the maximum allowed by law. In addition, if the Unauthorized Attachment is discovered during a survey where Licensee declined to participate an additional fee of \$100 per Unauthorized Attachment shall be charged to Licensee. Licensee agrees and acknowledges in the event of an Unauthorized Attachment actual damages would be difficult to determine and the charges described herein are liquidated damages, not penalties, and represent a fair and reasonable estimate of the damages which may be incurred by Licensor for Unauthorized Attachments on Licensor's Poles including wear and tear, lost revenue, increased maintenance and repair costs for having to work on a Pole where the owner of a facility is unknown, and the risk of liability for safety violations that may be the result of an Unauthorized Attachment..

c. Any such charge as set forth in Section 18(b) imposed by Licensor shall be in addition to its rights to any other sums due and payable, including without limitation Make Ready Work costs, the actual costs of any audit or survey which established the existence of the Unauthorized Attachment and to any claims to said fees.

d. No act by Licensor with regard to any unauthorized use shall be deemed as a ratification or the licensing of the unauthorized use, and if any License should subsequently be issued, after application and payment of all applicable fees therefore, said License shall not operate retroactively or constitute a waiver by Licensor of any of its rights or privileges under this Agreement or otherwise, and Licensee shall be subject to all liabilities, obligations and responsibilities of this Agreement in regard to said unauthorized use from its inception.

e. An Unauthorized Attachment shall include, but not limited to:

1. an Attachment to Poles which is not identified in any License issued in accordance with this Agreement;
2. an Attachment that occupies more space than that allocated to Licensee by Licensor in a License;
3. an Attachment that is not placed in accordance with the provisions of this Agreement or the appropriate License issued pursuant to this Agreement, unless Licensee can demonstrate to Licensor's reasonable satisfaction that said misplacement is not due to any act or omission of Licensee or Licensee's agents;
4. an addition or modification by Licensee to its pre-existing Attachment(s) that impairs the structural integrity of the involved Licensor Poles;
5. an Attachment that consists of facilities owned or controlled by, and for the use of a party other than Licensee that is overlashed to Licensee Attachments without approval by Licensor as required under this Agreement.

Licensee will be responsible for all fees associated with an Exhibit B Application for Pole License (as identified in this Agreement). A. The parties acknowledge that from time to time Licensee may use a Licensee Contractor to perform work for Licensee on, within or in Licensor's Poles.

B. Licensee represents and warrants that any of its employees or Licensee Contractors shall not climb or work on any of Licensor's Poles, or work within Licensor's Right-Of-Way unless such person has the training, skill, and experience required to recognize potentially dangerous conditions relating to Poles and to perform the work safely.

Licensor shall not be responsible for payment of workman's compensation, disability benefits, and unemployment insurance or for withholding or paying employment related taxes for any employee of Licensee, but such responsibility shall be solely that of Licensee. In the event that any federal, state or local government agency, any court or any other applicable entity determines that the personnel provided by Licensee or any permitted Licensee Contractor are employees of Licensor for any purpose, Licensee agrees to indemnify, defend and save harmless Licensor from all liabilities, costs, and expenses (including, but not limited to, reasonable attorney fees) associated with such determination in accordance with the indemnification provision of this License Agreement.

- 6. if any authorization which may be required of Licensee by any governmental or private authority for the placement, operation, or maintenance of Licensee's Attachments is denied or revoked.

22. INDEMNIFICATION AND LIMITATION OF LIABILITY

a. Licensee shall compensate Licensor for the full actual loss, damage or destruction of Licensor's property that in any way arises from or is related to this Agreement or activities undertaken pursuant to this Agreement (including, without limitation, the installation, construction, operation, or maintenance of Licensee's Attachments).

b. b. At the written request of a party, each party shall designate a knowledgeable, responsible representative to meet and negotiate in good faith to resolve any dispute, controversy, or claim arising under this Agreement. The parties intend that these negotiations be conducted by non-lawyer, business representatives. The substance of the negotiations shall be left to the discretion of the representatives. Discussions and correspondence between the representatives for the purposes of these negotiations shall be treated as confidential, undertaken for purposes of settlement, shall be exempt from discovery and production, and shall not be admissible in any subsequent proceeding without the concurrence of all parties. Documents identified in or provided during such negotiations, which are not prepared for purposes of the negotiations, shall not be so exempt and may, if otherwise admissible, be admitted as evidence in any subsequent proceeding.

29. NO THIRD-PARTY BENEFICIARIES

Except as otherwise provided in this Agreement, this Agreement is intended to benefit only the parties and may be enforced solely by the parties, their successors in interest or permitted assigns. 31. ASSIGNMENT

Licensee shall not assign; transfer or sublet the privileges hereby granted, or sell, lease or otherwise permit the use of its facilities on or any part thereof (all of the foregoing being "Transfers"), without prior consent in writing of Licensor. No such consent granted by Licensor shall be effective until Licensee's assignee, sublessee or other transferee has agreed, on an enforceable separate document signed and delivered to Licensor, to assume all obligations and liabilities of Licensee under this Agreement. Licensor may condition such consent upon the assignee's sublessee's or transferee's agreement to reasonable additional or modified terms or conditions. If there is a change of control of Licensee, then Licensor shall have the right, in its reasonable discretion, immediately to terminate this Agreement in its entirety without further liability.
