**PRICE GUIDE FORMAT**

- A. Page Numbering - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially, however, new pages are occasionally added to the price guide. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.
- B. Page Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version in the price guide.
- C. Check Sheets - The check sheet lists the pages contained in the price guide, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made are designated by an asterisk (\*).

**SECTION 1 - GENERAL**

1.1 Application of the Price Guide

1.1.1 This price guide governs the Company's services that originate and terminate in Maryland. Specific services and rates are described elsewhere in this price guide.

1.1.2 The Company's services are available to business customers.

1.1.3 The Company's service territory is consistent with Verizon Maryland's tariff.

1.2 Definitions

Authorized User - A person, firm, corporation, or any other entity authorized by the Customer to communicate utilizing the Carrier's service.

Bandwidth - The difference, expressed in Hertz, between the highest and lowest frequencies of a band constituting a channel or circuit.

Baud - A unit of signaling speed. The speed in bauds is the number of signaling elements per second.

Bit - A unit of information content. A bit is the smallest unit of information in a binary system of notation.

Bit Rate - The speed at which bits are transmitted, expressed in bits per second.

Channel or Circuit - A transmission path or paths between two or more points having a bandwidth or transmission speed suitable to render service to a Customer.

Commission - The Maryland Public Service Commission.

Company or Carrier - DeltaCom, LLC unless otherwise clearly indicated by the context.

Completed Call - A call that the Company's network has determined has been answered by a person, answering machine, fax machine, computer modem device, or other answering device.

Customer - The person, firm, corporation or other entity which orders, cancels, amends or uses service and is responsible for payment of charges and compliance with the Company's price guide.

---

**SECTION 1 - GENERAL (CONT'D.)**

1.3 Definitions (Cont'd.)

End User - Any person, firm, corporation, partnership or other entity which uses the services of the Carrier under the provisions and regulations of this price guide. The End User is responsible for payment unless the charges for the services utilized are accepted and paid by another Customer.

Holidays - Holidays observed by the Carrier as specified in this price guide.

DeltaCom, LLC - Used throughout this price guide to mean DeltaCom, LLC , unless clearly indicated otherwise by the text.

LATA - Local access and transport area. A geographic area established by the US District Court for the District of Columbia in Civil Action No. 17-49, within which a local exchange company provides communications services.

LEC - Local Exchange Company

Premises - A building or buildings on contiguous property.

Service - Any telecommunications service(s) provided by the Company under this price guide.

Special Construction - Service configurations specifically designed and constructed at a Customer's request.

Station - A telephone instrument consisting of a connected transmitter, receiver, and associated apparatus to permit sending or receiving telephone messages.

Subscriber - The person, firm, Customer, corporation or other entity that arranges for the Carrier to provide, discontinue or rearrange telecommunications services on behalf of itself or others under the provisions and terms of this price guide.

COMPETITIVE LOCAL EXCHANGE PRICE GUIDE

SECTION 2 - RULES AND REGULATIONS

All DeltaCom, LLC customers within Maryland are subject to the Terms and Conditions of Service as listed below and found at following link:

(T)

<http://www.windstream.com/Terms-and-Conditions/>

2.1 Collection Fee

(N)

A Collection Fee in addition to the Late Payment Charge of one- and one-half percent (1.5%) of the unpaid balance will be applied to the accounts of business subscribers with any unpaid balance when the previous month's bill has not been paid in full prior to the next billing date.

<u>Unpaid Balance</u>	<u>Collection Fee</u>
\$0 - \$50	\$10.00
\$50.01 - \$150	\$12.50
\$150.01 - \$350	\$15.00
\$350.01 - \$500	\$20.00
\$500.01 - \$1000	\$25.00
\$1000.01 - \$3000	\$30.00
\$3000.01 - \$5000	\$40.00
Over \$5000	\$55.00

2.2 Convenience Fee

In the event a business Customer makes a one-time or recurring payment using a credit card, a Convenience Fee Charge may apply. Any payments for a deposit or advance payment to establish new service are excluded from the Convenience Fee Charge. This charge does not apply to residential Customers or to business Customers that make payment using their financial institution's bill payment service, Customers with negotiated contracts that do not allow the assessment of this fee, or Customers without a computer. This fee will be assessed at the point of payment and will not appear on the Customer's invoice.

**SECTION 3 - DESCRIPTION OF SERVICE AND RATES**

3.1 General

DeltaCom, LLC offers local and private line service to Customers within the State of Maryland. Service is designed for transmission of data communications, but may be used by the Customer for any lawful purpose for which the service is technically suited.

Service is offered only to business Customers. When service is arranged for two-way calling, the Customer may select the interexchange carrier of his or her choice upon placing an initial order for service. A Primary Interexchange Carrier fee applies to subsequent changes of the primary carrier.

COMPETITIVE LOCAL EXCHANGE PRICE GUIDE

---

**SECTION 3 - DESCRIPTION OF SERVICE AND RATES (CONT'D.)**

3.2 Timing of Calls

Billing for calls placed over the network is based in part on the duration of the call.

3.2.1 Timing for all calls begins when the called party answers the call (i.e. when two way communications are established). Answer detection is based on standard industry answer detection methods, including hardware and software answer detection.

3.2.2 Chargeable time for all calls ends when one of the parties disconnects from the call.

3.2.3 Minimum call duration for billing purposes is one minute unless otherwise specified in the individual rate schedules of this price guide.

3.2.4 Calls are measured and billed in one minute increments unless otherwise indicated in this price guide. Any partial minute is rounded up to a full minute.

3.2.5 No charges apply to incomplete calls or to calls to wrong numbers for which the Customer promptly notifies the Company.

3.3 Zone Calling

When local calling is offered on a measured or message use basis, the applicable rates may depend in part on the terminating zone of the call. Zones used by DeltaCom, LLC as identical to those applicable to Bell Atlantic within Maryland as set forth in tariffs on file with the Maryland.

**SECTION 4 - SERVICE CHARGES AND SURCHARGES**

4.1 Service Order and Change Charges

Non-recurring charges apply to processing Service Orders for new service, for changes in service, and for changes in the Customer's primary interexchange carrier (PIC) code.

	<u>Residence</u>	<u>Business</u>
Order Processing Charge		
Establishment or relocation	\$22.00	\$47.00
Move, Add or Change	\$ 5.00	\$28.00
Record order change for customer	\$14.00	\$24.75
Line Connection Charge	\$26.00	\$40.00
Line Change Charge	\$ 6.00	\$ 6.00

4.2 Maintenance Visit Charges

Maintenance Visit Charges apply when the Company dispatches personnel to a Customer's premises to perform work necessary for installing new service, effecting changes in service or resolving troubles reported by the Customer when the trouble is found to be caused by the Customer's facilities. Maintenance Visit Charges will be credited to the Customer's account in the event trouble is not found in the Company facilities, but the trouble is later determined to be in those facilities.

The time period for which the Maintenance Visit Charges is applied will commence when Company personnel are dispatched at the Customer premises and end when work is completed. The rates for Maintenance of Service vary by time per Customer request.

Duration of time, per technician	<u>Residence</u>	<u>Business</u>
Initial 15 minute increment	\$22.00	\$23.00
Each Additional 15 minute increment	\$11.00	\$11.00

4.3 Restoration of Service

A restoration charge applies to the restoration of suspended service and facilities because of nonpayment of bills and is payable at the time that the restoration of the suspended service and facilities is arranged. The restoration charge does not apply when, after disconnection of service, service is later re-installed.

Customer Premise Visit Charge	<u>Residence</u>	<u>Business</u>
Per occasion	\$50.00	\$100.00 (I)

**SECTION 4 - SERVICE CHARGES AND SURCHARGES (CONT'D.)**

4.4 Expedited Order Charge

4.4.1 General

When placing an order for service(s), as defined in 4.4.2 below, for which a Standard Interval exists, a Customer may request a Service Commencement Date that is earlier than the Standard Interval Service Date, in which case an Expedite Charge will apply. The Expedite Charge will not apply if the new Service Commencement Date is more than five days from the date of the request to the Company of the expedited order request. The request for an earlier service date may be received from the Customer prior to the issuance of an Service Order, or after the Service Order has been issued but prior to the service date. The Company has the exclusive right to accept or deny the Expedite Order request. However if, upon reviewing availability of equipment and scheduled workload, the Company agrees to provide service on an expedited basis and the Customer accepts the Company's proposal, an Expedite Charge will apply.

In the event the Company provides service on an expedited basis on the Customer's request, and the Customer delays service or is not ready for delivery of service at the time of installation, a Service Date Change Charge will apply in addition to the Expedite Charge.

In the event that the Customer cancels an expedite request, the Expedite Charge will be added to any applicable Cancellation Charge specified herein.

An Expedite Charge will not be applied to orders expedited for Company reasons.

If costs other than additional administrative expenses are to be incurred when the Access Order is expedited, the regulations and charges for Special Construction as set forth in this Price guide will apply.

5.2 Call Timing for Usage Sensitive Services

Where charges for a service are specified based on the duration of use, such as the duration of a telephone call, the following rules apply:

- 5.2.1 Calls are measured in durational increments identified for each service. All calls which are fractions of a measurement increment are rounded-up to the next whole unit.
- 5.2.2 Timing on completed calls begins when the call is answered by the called party. Answering is determined by hardware answer supervision in all cases where this signaling is provided by the terminating local carrier and any intermediate carrier(s).
- 5.2.3 Timing terminates on all calls when the calling party hangs up or the Company's network receives an off-hook signal from the terminating carrier.
- 5.2.4 Calls originating in one time period and terminating in another will be billed in proportion to the rates in effect during different segments of the call.
- 5.2.5 All times refer to local time.

5.3 Distance Calculations

Where charges for a service are specified based upon distance, the following rules apply:

5.3.1 Distance between two points is measured as airline distance between the rate centers of the originating and terminating telephone lines. The rate center is a set of geographic coordinates, as referenced in Local Exchange Routing Guide issued by Bellcore, associated with each NPA-NXX combination (where NPA is the area code and NXX is the first three digits of a seven-digit telephone number). Where there is no telephone number associated with an access line on the Company's network (such as a dedicated 800 or WATS access line), the Company will apply the rate center of the Customer's main billing telephone number.

5.3.2 The airline distance between any two rate centers is determined as follows:

Step 1: Obtain the "V" (vertical) and "H" (horizontal) coordinates for each Rate Center from the above-referenced Bellcore document.

Step 2: Compute the difference between the "V" coordinates of the two rate centers; and the difference between the two "H" coordinates.

Step 3: Square each difference obtained in step (b) above.

Step 4: Add the square of the "V" difference and the square of the "H" difference obtained in step C) above.

Step 5: Divide the sum of the squares by 10. Round to the next higher whole number if any fraction is obtained.

Step 6: Obtain the square root of the whole number result obtained above. Round to the next higher whole number if any fraction is obtained. This is the airline mileage.

5.3.3 The formula for distance calculations is:

$$\sqrt{\frac{(V2 - V1)^2 + (H1 - H2)^2}{10}}$$

5.4 Rate Periods for Time of Day Sensitive Services

5.4.1 For time of day, usage sensitive services, the following rate periods apply unless otherwise specified in this price guide:

	MON	TUES	WED	THUR	FRI	SAT	SUN
8:00 AM TO 5:00 PM*	DAYTIME RATE PERIOD						
5:00 PM TO 11:00 PM*	EVENING RATE PERIOD						EVE
11:00 PM TO 8:00 AM*	NIGHT/WEEKEND RATE PERIOD						

\* Up to but not including.

5.4.2 Calls are billed based on the rate in effect for the actual time period(s) during which the call occurs. Calls that cross rate period boundaries are billed the rates in effect in that boundary for each portion of the call, based on the time of day at the Customer location.

5.4.3 For services subject to holiday discounts, the following are Company recognized national holidays, determined at the location of the calling station. The evening rate is used on national holidays, unless a lower rate normally would apply.

5.5 Standard Business Line

The Standard Business Line provides a Customer with a single, analog, voice-grade telephonic communications channel that can be used to place or receive one call at a time. Standard Business Lines are provided for the connection of Customer-provided wiring and single station sets or facsimile machines. An optional per line Hunting feature is available for multi-line Customers which routes a call to an idle station line in a prearranged group when the called station line is busy.

5.6 PBX Trunk Service

Basic PBX Trunk Service provides a Customer with a single, voice-grade telephonic communications channel that can be used to place or receive one call at a time. Basic Trunks are provided for connection of Customer-provided private branch exchanges (PBX) to the public switched telecommunications network. Each Basic PBX Trunk is provided with touch-tone signaling and may be configured into a hunt group at no additional charge with other Company-provided Basic PBX Trunks. The signal is an analog signal at the DS0 level.

Basic Trunks provided via On-Network services may be equipped with Direct Inward Dialing (DID) capability and DID number blocks for additional charges. DID service in an Off-Network arrangement requires special DID capable trunks plus additional DID number blocks.

5.7 Digital Voice Grade DS-1 Trunk Service

Digital Voice Grade DS-1 Trunk Service provides business Customers with PBX or PBX-like equipment or other telephonic equipment with access to switch ports. Customers can purchase this capability for both primary service (listed directory number) and diversity purposes. Customers must have the ability to terminate a DS1 signal. The signal is delivered as a digital signal at the DS1 level. The connection to the Customer's equipment is accomplished using a DS1 for digital connectivity.

5.8 Direct Inward Dialing (DID) Service

Direct Inward Dialing ("DID") permits calls incoming to a PBX system or other Customer Premises Equipment to be routed to a specific station without the assistance of an attendant. DID calls are routed directly to the station associated with the called number. DID service as offered by the Company provides the necessary trunks, telephone numbers, and out-pulsing of digits to enable DID service at a Customer's location. DID service requires special PBX software and hardware not provided by the Company. Such hardware and software is the responsibility of the Customer.

5.9 Integrated Services Digital Network (ISDN) Primary Rate Interface (PRI)

Integrated Services Digital Network (ISDN) is a set of transmission protocols that provides end-to-end digital connectivity and integration of voice, data and video, on a single Customer loop to support a wide variety of services via the public switched network. The Primary Rate Interface (PRI) consists of a 23B+D configuration with 23 64Kbps Bearer (B) digital channels and 1 64Kbps Data (D) digital channel. The B channels are designed for voice, data, image and sound transmissions. B channels can support synchronous, asynchronous or isochronous services at rates up to 64Kbps. B channels can be aggregated for higher bandwidth applications. The D channel PRI provides the out of band signaling, call control and messaging.

PRI is provided through standard four wire DS-1 (1.544Mbps) point to point, private line facilities that enables Customer control of the 24 individual channels. PRI supports 1+, 0+, 7 digit, and 10 digit Local, IntraLATA and InterLATA services, as well as 01+ and 011+ international calling. PRI allows Customers to direct voice, data and video over the Public Switched Telephone Network. Channels may be pre-subscribed to an IXC carrier of their Customer's choice or used with 10XXX casual dialing. PRI also allows access to Public Switched Network services, such as Two-Way, Incoming Only, Outgoing Only and DID.

Multiple PRI interfaces can be combined to function as one group. Utilizing a Backup D Channel arrangement, Customers are able to link up to 20 DS-1s together, providing a maximum of 479 64Kbps B channels controlled by a single D (signaling) channel.

5.10 Optional Calling Features

The features listed in Section 5.10.1 are offered by the Company to Residential and Business Customers. Service availability may vary between On-Net and Off-Net Customers. Refer to Price Lists in Sections 5 and 6 of this price guide for specific features offered with each type of local exchange service.

5.10.1 Feature Descriptions

- A. Enhanced Call Forwarding: Provides end-user control for call forwarding capabilities via dial-accessed voice prompt menus. Customers may forward calls to a primary local or long distance. The end-user may specify a secondary location for routing of go unanswered at the forward-to location or reach a busy signal. This secondary location may be another telephone number, pager or voice messaging service. Other Capabilities included with this feature include:

- Speed Forwarding
- Priority Screening;
- Ring Control; and
- Timed Forwarding.

It is the responsibility of the Customer to subscribe to the telephone number, pager or voice messaging service used as the secondary location.

- B. Enhanced Call Forwarding with Audio Calling Name: Provides all of the functionality of Enhanced Call Forwarding. Also permits the end-user to receive the Directory Name of the party's whose call was forwarded to primary number. In some situations, the end-user may hear the calling party's city and state or telephone number, depending on available call data.
- C. Enhanced Call Forwarding Plus: Provides all of the functionality of Enhanced Call Forwarding. Also includes an additional telephone number with directory listing and distinctive ringing for calls placed to the additional number. Enhanced Call Forwarding Plus allows parties to reach the end-user's location when FCF is active and all calls to the end-users main telephone number would normally forward. Calls to the additional number do not forward even when Enhanced Call Forwarding is active.

Also permits the end-user to receive the Directory Name of the party's whose call was forwarded to primary number. In some situations, the end-user may hear the calling party's city and state or telephone number, depending on available call data.
- E. Call Forwarding Variable - Permits the end-user to automatically forward (transfer) all incoming calls to another telephone number, and to restore it to normal operation at their discretion. The end-user must dial an activation code from his/her exchange line along with the forward-to number in order to turn the feature on. A separate code is dialed by the end-user to deactivate the feature.
- F. Call Forwarding Variable, Remote Access - Permits the end-user to automatically forward (transfer) all incoming calls to another telephone number, and to restore it to normal operation at their discretion. The end-user must dial an activation code along with the forward-to number in order to turn the feature on. A separate code is dialed by the end-user to deactivate the feature. Feature activation may be performed from the end-user's exchange line or remotely from some other line. Remote access requires the end-user to 1) dial a special access number 2) enter their seven-digit telephone number and 3) enter a personal identification number prior to forwarding their calls.
- G. Call Forwarding Don't Answer, Basic - Permits the forwarding of incoming calls when the end-user's line remains unanswered after a pre-designated ringing interval. The ringing interval before forwarding and the forward-to number are fixed by the service order.
- H. Call Forwarding Don't Answer w/ Ring Control - Permits the forwarding of incoming calls when the end-user's line remains unanswered after a pre-designated ringing interval. The forward-to number is fixed by the service order. However, the end-user has the ability to change the time interval before forwarding occurs at his/her discretion.

The ringing interval before forwarding and the forward-to number are fixed by the service order. However, the end-user has the ability to turn the feature on or off at his/her discretion.
- J. Call Forwarding Busy Line, Basic - Permits the forwarding of incoming calls when the end-user's line is busy. The forwarded number is fixed by the end-user service order.
- K. Call Forwarding Busy Line w/ Customer Control - Permits the forwarding of incoming calls when the end-user's line is busy. The forwarded number is fixed by the end-user service order. However, the end-user has the ability to turn the feature on or off at his/her discretion.
- L. Call Waiting - Basic - Call Waiting provides a tone signal to indicate to a Customer already engaged in a telephone call that a second caller is attempting to dial in. It permits the Customer to place the first call on hold, answer the second call and then alternate between both callers. Cancel Call Waiting is provided with the feature and allows a Call Waiting end-user to disable the Call Waiting feature for the duration of a single outgoing telephone call. Cancel Call Waiting is activated by dialing a special code prior to placing a call, and is automatically deactivated when the Customer disconnects from the call.

5.10 Optional Calling Features (Cont'd.)

5.10.1 Feature Descriptions (Cont'd.)

M. Call Waiting - Deluxe - Allows the end-user to control the treatment applied to incoming calls while the Customer is off-hook on an existing call. This feature includes the capabilities of Call Waiting Basic plus additional call treatment options. Treatment options offered with Call Waiting Deluxe include:

- Answer the waiting call and placing the first party on hold;
- Answer the waiting call and disconnecting from the first party;
- Direct the waiting caller to hold via a recording
- Forward the waiting caller to another location (e.g., voice mailbox or telephone answering service)

Full utilization of Call Waiting Deluxe requires specialized CPE not provided by the Company. It is the responsibility of the Customer to provide the necessary CPE. The end -user must have Caller ID Basic or Deluxe for display of calling party identification information for waiting calls. The end-user must have a Call Forwarding Don't Answer feature active in order to forward a waiting call to another location.

N. Call Waiting - Deluxe with Conferencing - Provides all of the functionality of Call Waiting Deluxe. Also permits the end-user to conference a waiting call with an existing call (first party) and, if desired, subsequently drop either leg of the conferenced call.

O. Caller ID - Basic - Permits the end-user to view a Directory Number of the calling party on incoming telephone calls. Information is displayed on a specialized CPE not provided by the Company. The feature also provides the date and time of each incoming call. It is the responsibility of the Customer to provide the necessary CPE.

5.10 Optional Calling Features (Cont'd.)

5.10.1 Feature Descriptions (Cont'd.)

- P. Caller ID - Deluxe - Permits the end-user to view a Directory Name and Directory Number of the calling party on incoming telephone calls. Information is displayed on a specialized CPE not provided by the Company. The feature also provides the date and time of each incoming call. It is the responsibility of the Customer to provide the necessary CPE. In some situations, the calling party's city and state may be displayed rather than a Directory Name, depending on available call data.
- Q. Anonymous Call Rejection - Permits the end-user to automatically reject incoming calls when the call originates from a telephone number which has blocked delivery of its calling number (see Calling Number Delivery Blocking). When active, calls from private numbers will be routed to a special announcement then terminated. The feature may be turned on or off by the end-user by dialing the appropriate feature control code. Anonymous Call Rejection is offered as a stand-alone feature or as an add-on to Caller ID Deluxe.
- R. Call Block - Allows the end-user to automatically block incoming calls from up to six end-user pre-selected telephone numbers programmed into the feature's screening list. Callers whose numbers have been blocked will hear a recorded message stating that their call has been blocked. The end-user controls when the feature is active, and can add or remove calling numbers from the feature's screening list.
- S. Call Return - allows the Customer to return a call to the last incoming call whether answered or not. Upon activation, it will re-dial the number automatically and continue to check the number every 45 seconds for up to 30 minutes if the number is busy. The Customer is alerted with a distinctive ringing pattern when the busy number is free. When the Customer answers the ring, the call is then completed. The calling party's number will not be delivered or announced to the call recipient under any circumstances.

**SECTION 5 - NETWORK SERVICES DESCRIPTIONS (CONT'D.)**

5.10 Optional Calling Features (Cont'd.)

5.10.1 Feature Descriptions (Cont'd.)

- T. Call Selector - Allows a Customer to assign a maximum of 15 telephone numbers to a special list. The Customer will hear a distinctive ring when calls are received from telephone numbers on that list.
- U. Call Tracing - Allows the tracing of nuisance calls to a specified telephone number suspected of originating from a given local office. The tracing is activated upon entering the specified dial code. The originating telephone number, outgoing trunk number or terminating number, and the time and date are generated for every call to the specified telephone number can then be identified.
- V. Calling Number Delivery Blocking - Prevents the delivery, display and announcement of the end-user's Directory Number and Directory Name on all calls dialed from an exchange service equipped with this option. When active, the end-user's telephone name and number will not appear on the called party's Caller ID CPE or be disclosed in another way. The feature is available on a per call or per line basis. With per call Calling Number Delivery Blocking, it is necessary for the end-user to dial an activation code prior to placing the call. With the per line version of the feature, all calls are placed with the end-user's number blocked.
- W. Message Waiting Indication - Provides the end-user with an audible (stutter dial tone) or visual (lamp or other CPE display) indication that messages are waiting to be retrieved. Message Waiting Indication can only be activated/deactivated by a voice mailbox or other voice messaging service provided by the Company or third party. It is the responsibility of the Customer to subscribe to a compatible voice messaging service. Visual Message Waiting Indication requires specialized CPE not provided by the Company. It is the responsibility of the Customer to provide the necessary CPE.

5.10 Optional Calling Features (Cont'd.)

5.10.1 Feature Descriptions (Cont'd.)

- X. Multiple Directory Number Distinctive Ringing - This feature allows an end user to determine the source of an incoming call from a distinctive ring. The end user may have up to two additional numbers assigned to a single line (i.e. Distinctive Ringing - First Number and Distinctive Ringing - Second Number). The designated primary number will receive a normal ringing pattern, other numbers will receive distinctive ringing patterns. The pattern is based on the telephone number that the calling party dials.
  
- Y. Preferred Call Forwarding - Permits the end-user to automatically forward to another number calls received from up to six end-user pre-selected telephone numbers programmed into the features screening list. The end-user controls when the feature is active, the forward-to number and can add or remove calling numbers from the feature's screening list.
  
- Z. Repeat Dialing - Permits the end-user to have calls automatically re-dialed when the first attempt reaches a busy number. The line is checked every 45 seconds for up to 30 minutes and alerts the Customer with a distinctive ringing pattern when the busy number and the Customer's line are free. The Customer can continue to make and receive calls while the feature is activated. The following types of calls cannot be reached using Repeat Dialing:
  - Calls to 800 Service numbers
  - Calls to 900 Service numbers
  - Calls preceded by an interexchange carrier access code
  - International Direct Distance Dialed calls
  - Calls to Directory Assistance
  - Calls to 911

The feature is available as either an eight (8) code list or a thirty (30) code list. Code lists may include local and/or toll telephone numbers. The Customer has the ability to add or remove telephone numbers and codes to/from the speed calling list without assistance from the Company.
  
- AB. Three Way Calling - Permits the end-user to add a third party to an established connection. When the third party answers, a two-way conversation can be held before adding the original party for a three-way conference. The end-user initiating the conference controls the call and may disconnect the third party to reestablish the original connection or establish a connection to a different third party. The feature may be used on both outgoing and incoming.

**SECTION 5 - NETWORK SERVICES DESCRIPTIONS (CONT'D.)**

5.11 Listing Services

For each Customer of Company-provided Exchange Service(s), the Company shall arrange for the listing of the Customer' main billing telephone number in the directory(ies) published by the dominant Local Exchange Carrier in the area at no additional charge. At a Customer' option, the Company will arrange for additional listings for an additional charge.

5.11.1 Non-Published Service

This optional service provides for suppression of printed and recorded directory listings. A Customer's name and number do not appear in printed directories or Directory Assistance Bureau records.

5.11.2 Non-Listed Service

This optional service provides for suppression of printed directory listings only. Parties may still obtain the Customer's number by calling the Directory Assistance Bureau.

5.12 Directory Assistance

Provides for identification of telephone directory numbers, via an operator or automated platform. Customers are provided with a maximum of 2 listings per each call to Directory Assistance. Residential customers shall receive six free directory assistance calls per month with two requests per call. Charges will not be levied for Directory Assistance on an individual who suffers from a physical or visual disability that precludes the use of a telephone directory.

**SECTION 6 - LOCAL RESALE SERVICES PRICE LIST**

The rates provided in Section 6 apply to Customers that are currently in a Service Term agreement with the Company. All Customers being provided Month to Month services through an expired service term or who have never had a contractual relationship with the Company will find the rates for their specific out of contract services in Section 11 - Non-Term Rates.

6.1 General

Services provided in this price guide section are available on a Resale Service basis. Local Resale Services are provided through the use of resold switching and transport facilities obtained from Other Telephone Companies.

The rates, terms and conditions set forth in the section are applicable where the Company provides specified local exchange services to Customers through resale of Verizon f/k/a Bell Atlantic local exchange services. The rates, terms and conditions set forth in this section are not applicable to the Company's provision of service within the service area of any other incumbent local exchange carrier or where the Company provides service, in whole or in part, over its own facilities (On-Net). The rates, terms and conditions set forth in this Section 6 are available on a retail basis only and will not be provided for resale to any other carrier.

All rates set forth in this section are subject to change. The rates, terms and conditions set forth in this section are applicable as of the effective date hereof and will not apply to any Customer whose services may have been provisioned through resale of Verizon's local exchange services, in whole or in part, prior to the effective date hereof.

The following rules apply to standard listings in light face type in the white pages (alphabetical section) of the telephone directory and to the Directory Assistance records of the Company.

Only information necessary to identify the Customer is included in these listings. The Company use abbreviations in listings. The Company may reject a listing it judges to be objectionable. A name made up by adding a term such as Company, Shop, Agency, Works, etc. to the name of a commodity or service will not be accepted as a listing unless the subscriber is legally doing business under that name.

A name may be repeated in the white pages only when only when a different address or telephone number is used.

7.1 Directory Listings, (Cont'd.)

7.1.2 Composition of Listings

A. Names

The following names may be included in business service listings:

1. The name of subscriber or joint user.
2. The name of each business enterprise which the subscriber or joint user conducts.
3. The name by which the business of a subscriber or joint user is known to the public. Only one such name representing the same general line of business will be accepted.
4. The name of any person associated with the subscriber or joint user in the same business.
5. The name of any person, firm or organization which subscriber or joint user is authorized to represent, or the name of an authorized representative of the subscriber or joint user.
6. Alternative spelling of an individual name or alternative arrangement of a business name, provided the listing in the judgment of the Company, is not for advertising purposes.  
The name of a publication issued periodically by the subscriber or joint user.
7. The name of an inactive business organization in a cross-reference listing when authorized by such business or organization.
8. The name of a member of subscriber's domestic establishment when business service is furnished in the subscriber's residence.
9. The name of a corporation which is the parent or a subsidiary of the subscriber.
10. The name of a resident of a hotel, apartment house, boarding house or club which is furnished PBX service, may be included in a residence type listing with the telephone number of the PBX service.
11. The name of the subscriber to a sharing arrangement.

7.1 Directory Listings, (Cont'd.)

7.1.2 Composition of Listings, (Cont'd.)

B. Designation

The purpose of a business designation is to identify the listed party and not to advertise the business. No designation of the nature of the business is included if this is sufficiently indicated by the name. Where a listed party is engaged in more than one general line of business, one additional business designation may be included in the listing when necessary to identify the listed party. When a listed party has two or more listed telephone numbers or two or more business addresses, designations indicating the branches of the organization may be included where necessary to assist the public in calling.

A designation may include a title to indicate a listed party's official position, but not the name of the firm or corporation with which the individual is connected. Individual names or titles are not shown following the name of a firm or corporation. A term such as "renting agent" may be included in a listing indented under the name of a building, provided the agent maintains a renting office in such a building.

A designation is not ordinarily provided in a residence type listing. A professional designation is permitted on residence service in the case of a physician, surgeon, dentist, osteopath, chiropodist, podiatrist, optometrist, chiropractor, physiotherapist, Christian Science practitioner, veterinary surgeon, registered nurse or licensed practical nurse, provided that the same name and designation is also listed on business service of that subscriber or another subscriber in the same or different directory.

The listing of service in the residence of a clergyman may include the designation "parsonage," "rectory," "parish house," or "manse," and any such listing may be indented under a listing in the name of the church. Where residence service is furnished in a church study, the listing may include the designation "study."

7.2 Non-Published Service

7.2.1 General

Non-published service means that the Customer's telephone number is not listed in the directory, nor does it appear in the Company's Directory Assistance Records.

7.2.2 Regulations

This service is subject to the rules and regulations for E911 service, where applicable.

The Company will complete calls to a non-published number only when the caller dials direct or gives the operator number. No exceptions will be made, even if the caller says it is an emergency.

When the Company agrees to keep a number unlisted, it does so without any obligation. Except for cases of gross negligence or willful misconduct, the Company is not liable for any damages that might arise from publishing a non-published number in the directory or disclosing it to some. If, in error, the telephone number is published in the directory, the Company's only obligation is to credit or refund any monthly charges the Customer paid for non-published service.

The subscriber indemnifies (i.e., promises to reimburse the Company for any amount the Company must pay as a result of) and save the Company harmless against any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the publication of a non-published service or the disclosing of said number to any person.

**SECTION 12 - INTRALATA TOLL PRESUBSCRIPTION**

12.1 General

IntraLATA toll presubscription is a procedure whereby an end user or a Pay Telephone Service Provider may select and designate an IntraLATA Toll Provider (ITP) to access intraLATA toll calls without dialing an access code. The end user or Pay Telephone Service Provider may designate an ITP for intraLATA toll, a different carrier for interLATA toll, or the same carrier for both. This ITP is referred to as the end user or Pay Telephone Service Provider preferred intraLATA toll provider.

Each carrier will have one or more access codes assigned to it for various types of service. When an end user or Pay Telephone Service Provider selects a carrier as its preferred intraLATA toll provider, only one access code of that carrier may be incorporated into the switching system of the Telephone Company permitting access to that carrier by the end user or Pay Telephone Service Provider without dialing an access code. Should the same end user or Pay Telephone Service Provider wish to use other services of the same carrier, it will be necessary for the end user or Pay Telephone Service Provider to dial the necessary access code(s) to reach that carrier's other service(s).

An ITP must use Feature Group D (FGD) Switched Access Service to qualify as an intraLATA toll provider. All ITPs must submit a letter of Intent (LOI) to the Telephone Company at least twenty days prior to the intraLATA toll-presubscription-conversion date or, if later, forty-five days prior to the date on which the carrier proposed to begin participating in intraLATA toll presubscription.

Selection of an ITP by an end user or Pay Telephone Service Provider is subject to the terms and conditions in 16.2.

**SECTION 12 - INTRALATA TOLL PRESUBSCRIPTION**

12.2 Presubscription Charge Application

12.2.1 Ninety Day Initial Free Presubscription for Existing Users

- A. Existing end users or Pay Telephone Service Providers may exercise an initial free presubscription choice, either by contacting the Telephone Company, or by contacting the ITP directly. The initial free choice must be made within ninety (90) days following implementation of intraLATA toll presubscription. End user or Pay Telephone Service Provider choices that constitute exercising the free choices are:
  - 1. Designating an ITP as their primary carrier, thereby requiring no access code to access that ITP's service. Other carriers are accessed by dialing 101-XXXX or other required codes.
  - 2. Choosing no carrier as a primary carrier, thus requiring 101-XXXX code dialing to access all ITPs. This choice can be made by directly contacting the Telephone Company.
- B. Following an existing end user's or Pay Telephone Service Provider's free selections, any change made more than ninety (90) days after presubscription is implemented is subject to a nonrecurring charge, as set forth in Section 16.6.

12.2.2 Initial Free Presubscription Choice for New Users

New end users or Pay Telephone Service Providers who subscribe to service after the presubscription implementation date (including an existing customer who orders an additional line) will be asked to select a primary ITP when they place an order for Telephone Company Exchange Services. If a customer cannot decide upon an intraLATA toll carrier at the time, the customer will have thirty days following completion of the service request to make an intraLATA PIC choice without charge. In the interim, the customer will be assigned a "NO-PIC" and will have to dial an access code to make intraLATA toll calls. The free selection period available to new users or Pay Telephone Service Providers is the period within thirty days of installation of service.

  - 1. Designating an ITP as their primary carrier, thereby requiring no access code to access that ITP's service. Other carriers are accessed by dialing 101-XXXX or other required codes.
  - 2. Choosing no carrier as a primary carrier, thus requiring 101-XXXX code dialing to access all ITPs. This choice can be made by directly contacting the Telephone Company.
- B. Following a new end user's or Pay Telephone Service Provider's free selections, any change made more than thirty (30) days after presubscription is implemented is subject to nonrecurring charge, as set forth in Section 16.6.

12.2.3 Charge for IntraLATA Toll Presubscription

After expiration of the initial free subscription period for new customers, as specified in 16.2.2, or existing customers, as specified in 16.2.1, the end user or ITP will be assessed an intraLATA Toll presubscription charge as specified in 16.6.

12.2.4 IntraLATA Toll Presubscription by an ITP

If an ITP elects to discontinue Feature Group D service after implementation of the intraLATA toll presubscription option, the ITP is obligated to contact in writing, all end users or Pay Telephone Service Providers who have selected the canceling ITP as their preferred intraLATA toll provider. The ITP must inform the end users or Pay Telephone Service Providers that it is canceling Feature Group D service, request that the end user select a new ITP and state that the canceling ITP will pay the PIC change charge, as provided in 16.6. The ITP must provide written notification to the Telephone Company that this activity has taken place.

12.3 End User/Pay Telephone Service Provider Charge Discrepancy

12.3.1 Authorization Priority

- A. When a discrepancy is determined regarding an end user's designation of a preferred intraLATA toll carrier, the following applies depending upon the situation described:
1. A signed letter of authorization takes precedence over any order other than subsequent, direct customer contact with the Telephone Company.
  2. When two or more orders are received for an end user line generated by telemarketing, the date field on the mechanized record used to transmit PIC change information will be used as the PIC authorization date. The order with the latest application date determines customer choice.

12.3.2 Verification of Orders for Telemarketing

- A. No ITP shall submit to the Telephone Company a PIC change order generated by outbound telemarketing unless, and until the order first has been confirmed in accordance with the following procedures:
1. The ITP has obtained the customer's written authorization to submit the order that explains what occurs when a PIC is changed and confirms:
    - a. The Customer's billing name and address and each telephone number to be covered by the PIC change order;
    - b. The decision to change the PIC to the ITP; and
    - c. The Customer's understanding of the PIC change fee; or

2. The ITP has obtained the Customer's electronic authorization, placed from the telephone number(s) on which the PIC is to be changed, to submit the order that confirms the information described in (a) preceding to confirm the authorization or;
3. An appropriately qualified and independent third party operating in a location physically separate from the outbound telemarketing representative has obtained the Customer's oral authorization to submit the PIC change order that confirms and includes appropriate verification of data (e.g., the Customers date of birth or social security number).

12.3.3 PIC Switchback Options

A. Customers denies requesting change to ITP

When the Telephone Company is contacted by an end user who denies requesting a change in ITP primary PIC, the end user will be credited the charge assessed for the disputed change in carrier, and will be switched back to the previous ITP at no charge.

The ITP is in no way relieved of the FCC requirements for:

1. Verifying all PIC orders obtained by outbound telemarketing prior to submitting those orders, or
2. Instituting steps to obtain verification of orders submitted to the Telephone Company.

12.4 PIC Freeze Option

A PIC Freeze option is available to Customers who wish to "freeze" their PIC to prevent unwanted changes. The Customer may also "lift" the freeze by using a three-way call between the carrier, the customer and the Telephone Company. If the Customer changes the PIC, a new form will need to be completed for a freeze to be applied to the new PIC. The freeze will be completed without charge to the customer.

The Telephone Company will not market the PIC freeze option to Customers within a ninety (90) day period after implementation of intraLATA Toll presubscription. The option, however, is still available during that time period on Customer request.
