# SECTION 2 - GENERAL RULES AND REGULATIONS (Cont'd)

# 2.2 MINIMUM PERIOD OF SERVICE

The minimum period of service is one month except as otherwise provided in this Service Guide. The customer must pay the regular rate for the service they subscribe to for the minimum period of service. If a customer disconnects service before the end of the minimum service period, that customer is responsible for paying the regular rates for the remainder of the minimum service period. When the service is moved within the same building, to another building on the same premises, or to a different premises entirely, the period of service at each location is accumulated to calculate if the customer has met the minimum period of service obligation.

If service is terminated before the end of the minimum period of service as a result of condemnation of property, damage to property requiring the premises to be abandoned, or by the death of the customer, the customer is not obligated to pay for service for the remainder of the minimum period.

If service is switched over to a new customer at the same premises after the first month's service, the minimum period of service requirements are assigned to the new customer if the new customer agrees in writing to accept them. For facilities not taken over by the new customer, the original customer is responsible for the remaining payment for the minimum service period in accordance with the terms under which the service was originally furnished.

The Company may offer services which require a minimum use guarantee ("MUG") wherein the Subscriber agrees, in writing, to pay the minimum amount per period agreed to upon commencement of service. Subscribers falling below their MUG will be billed for the minimum amount due per period pursuant to the MUG agreement.

If no termination of subscriber's contract, Subscriber will be liable for their monthly average usage (calculated over the last three full months immediately preceding the date of termination) multiplied by the number of months remaining in the term.

The initial contract period for service under this section is one month. Subsequent contract periods shall be for additional one-month periods unless otherwise specified.

# 2.3 PAYMENT FOR SERVICE RENDERED (Cont'd)

# 2.3.3 Payment of Charges

Charges for facilities and service, other than usage charges, are due monthly, in advance. All other charges are payable upon request of the Company. Bills are due on the due date shown on the bill and are payable at any business office of the Company, by U.S Mail, or at any location designated by the Company. All bills are presumed accurate and shall be binding on the Customer unless written notice of the disputed charge(s) is received by the Company within thirty (30) days after the invoice date. If Company initiates legal proceedings to collect any amount due hereunder and the Company substantially prevails in such proceedings, then the Customer shall pay the reasonable attorneys' fees and costs incurred by Company in prosecuting such proceedings and any appeals therefrom. Interest will be paid from the date when the customer overpayment was made, adjusted for any changes in the deposit rate or late payment rate, compounded monthly, until the overpayment is refunded. Notwithstanding the foregoing, no interest will be paid by the Company on customer overpayments that are refunded within 30 days after the overpayment is received by the Company.

Where an objection to the bill involves a superseded service order, the items and charges appearing on the bill shall be deemed to be correct and binding upon the customer if objection is not received by the Company within two months after the bill is rendered.

#### 2.13 SCHOOLS AND LIBRARIES DISCOUNT PROGRAM

#### 2.13.1 General

The Schools and Libraries Discount Program permits eligible schools (public and private, grades Kindergarten through 12) and libraries to purchase the Company services offered in this Service Guide at a discounted rate, in accordance with the Rules adopted by the Federal Communications Commission (FCC) in its Universal Service Order 97-157, issued May 8, 1997 and the New York State Public Service Commission in its Opinion and Order 97-11 Adopting Discounts for Services for Schools and Libraries, issued June 25, 1997. The Rules are codified at 47 Code of Federal Regulation (C.F.R.) 54.500 et. seq.

As indicated in the Rules, the discounts will be between 20 and 90 percent of the prediscount price, which is the price of services to schools and libraries prior to application of a discount. The level of discount will be based on an eligible school or library's level of economic disadvantage and by its location in either an urban or rural area. A school's level of economic disadvantage will be determined by the percentage of its students eligible for participation in the national school lunch program, and a library's level of economic disadvantage will be calculated on the basis of school lunch eligibility in the public school district in which the library is located. A non-public school may use either eligibility for the national school lunch program or other federally approved alternative measures to determine its level of economic disadvantage. To be eligible for the discount, schools and libraries will be required to comply with the terms and conditions set forth in the Rules. Discounts are available only to the extent that they are funded by the federal universal service fund. Schools and libraries may aggregate demand with other eligible entities to create a consortium.

#### 4.1 GENERAL

# 4.1.1 Description

IntraLATA toll service is furnished for communication between telephones in different local calling areas within a particular LATA in accordance with the regulations and schedules of charges specified in this Service Guide. The toll service charges specified in this section are in payment for all service furnished between the calling and called telephone, except as otherwise provided in this Service Guide. The Company may use the terms intraLATA toll and Regional Long Distance (Regional LD) interchangeable in other documentation presented to the Customer (e.g. individually negotiated contracts or invoices). The terms of this Service Guide governing intraLATA toll services apply regardless of the nomenclature used.

IntraLATA toll calling includes the following types of calls: direct dialed, calling card, collect, 3rd number billed, special toll billing, requests to notify of time and charges, person to person calling and other station to station calls.

# A. IntraLATA Pre-Subscription

The following intraLATA Pre-subscription options are available to customers.

The intent of the Plan is to permit customers to route intraLATA toll calls automatically, without the use of access codes, to any interexchange carrier ("IXC") of the customer's choice that has established itself as an access customer under PaeTec's Access Services Service Guides filed at the FCC and with the Commission.

PaeTec will implement a full 2-PIC carrier selection methodology. With the full 2-PIC methodology, customers will be able to presubscribe to one telecommunications carrier, including PaeTec, for interLATA toll calls and to presubscribe to the same or a different participating telecommunications carrier for intraLATA toll calls.

#### J. Call ID

Call ID and Call ID with Name Service may be provided to residence, business and PBX customers (if the PBX equipment is compatible with Call ID.) This feature allows a customer to see the telephone number of an incoming call displayed on the customer provided display unit. The telephone numbers that will be displayed on a Call ID subscriber's display unit include listed, non-listed and non-published numbers. Telephone numbers that will not be displayed are: (1) calls from customers who use Per-call Blocking or Line-Blocking (2) calls from customers located in central offices not a part of the SS7 Signaling System and; (3) calls placed through an operator.

Call ID service also provides a residential customer with the ability to reject calls from customers who have blocked the display of their telephone number on outgoing calls. This feature is called Anonymous Call Rejection (ACR) and can be activated and deactivated by dialing a specific code. There is no additional charge for ACR service.

# K. Call ID Per-Call Blocking

Per-Call Blocking is automatically available to all customers served by the Company. This blocking option allows the calling party to block the passage of their telephone number and name on outgoing calls. To activate Per-Call Blocking a special code is dialed prior to placing each call. There is no charge to activate Per-Call Blocking and the service is provided on an unlimited basis. After the call is competed, the line automatically reverts back to the Per-Line Blocking feature. The deactivation of Per-Line Blocking is completed by dialing a special code prior to placing each call. The code to deactivate Per-Line Blocking is different than the one used to activate Per-Call Blocking. Call ID Per-Line Blocking will be available where facilities permit. ## M. Direct Trunk Overflow

The Direct Trunk Overflow feature gives the Customer another termination option if all of their DID trunks are busy. This all-trunks-busy condition may be caused either by legitimate heavy incoming traffic or by a trouble condition where the T-1 system is down and the 5ESS senses that trouble as an all-trunks-busy condition. During either busy condition, the incoming call attempts to terminate to the DID group. When the 5ESS sees all trunks busy, it will choose an alternate route for the call to a telephone number that is programmed in the 5ESS only. This telephone number has the Call Forward Remote feature assigned to it and forwards the call to a number chosen by the Customer.

Remote Access DTO enables the customer to activate and/or update the Call Forwarding on their DTO from any location. The customer uses a provided remote-access toll free number, the DTO Call Forwarding line and their four-digit PIN to review or change their call forwarding number.

#### **SECTION 9 - SERVICE AREAS**

#### 9.1 GENERAL

Each exchange within the Company's service area within New York is assigned to a Zone which is used to specify Business and Residential Local Flat and Local Measured Rates. Sections 11.3 through 11.8 of this Service Guide illustrate Company New York local calling areas. Section 11.2 defines exchanges by geographic areas and NPA/NXXs.

Zone One indicates contiguous exchanges and is considered local calls. Zone One rates can be found in Addendum A of this Service Guide. All calls made to locations other than those included in Zone One are considered intraLATA toll calls.

For example, suppose a customer wanted to know how much it would cost to call Amityville from Nassau. First they would need to define Nassau by locating their specific geographic location and NPA/NXX in the definition section 11.2. Then they would refer to the chart in section 11.3 and locate Nassau in the left column under EXCHANGE. Next, they would search for Amityville in that row under the column heading ZONE ONE. Amityville is located under ZONE ONE and thus the call has a Zone One rate. If Amityville was not located under the column heading ZONE ONE it would be considered an intraLATA toll call.
