

RETAIL SERVICES

GENERAL TERMS & CONDITIONS OF

TELECOMMUNICATIONS SERVICES

TARIFF

In addition to the general Company Terms & Conditions, and any product-specific Terms and Conditions, all of which are available at www.windstream.com, or by calling a service representative at (800) 347-1991, the following sets forth the terms and conditions applicable to the furnishing of end-user communications services provided by Windstream, and its affiliates.

Windstream, and its affiliates, comply with applicable laws, rules, and regulations at the state and federal levels; in the event of a conflict between the terms and conditions contained herein, and applicable government laws, rules, or regulations, the latter shall prevail.

Explanation of Symbols. When changes are made on any sheet, a revised sheet will be issued replacing the sheet affected. Changes will be identified on the revised sheet through the use of the following symbols:

- (C) - Identifies a changed regulation.
- (D) - Identifies a discontinued rate or regulation.
- (I) - Identifies an increase in rate.
- (M) - Identifies material moved from one Tariff location to another.
- (N) - Identifies a new rate or regulation.
- (R) - Identifies a reduction in rate.
- (T) - Identifies a change in text only.

1.0 Application and Scope of Tariff

1.1 Application

This Tariff contains the rates and regulations applicable to intrastate, intraLATA, interexchange and/or local services provided by the Company between and among points within the Customer's state.

1.2 Scope

Service is available where facilities permit and are available, by Windstream in its sole discretion.

2.0 General Rules and Regulations

2.1 Undertaking of Company

2.1.1 General

Pursuant to this Tariff, Company undertakes to provide within the service area in which Company has been approved for certification intrastate, intraLATA, and interexchange services.

2.1.2 Limitations

In furnishing facilities and service, the Company does not undertake to transmit messages, but furnishes the use of its facilities to its customers for communications.

The rates otherwise provided for in this tariff are based on furnishing service to existing lines and facilities and on the use of lines and facilities engineered and constructed according to common and accepted practices.

The Company's obligation to furnish facilities and service is dependent upon its ability to:

(a) secure and retain, without unreasonable expense at the sole discretion of the Company, suitable facilities and rights for the construction and maintenance of the necessary circuits and equipment;

(b) secure and retain, without unreasonable expense at the sole discretion of the Company, suitable space for its plant and facilities in the building where service is or will be provided to the customer; or

(c) secure reimbursement of all costs where the owner or operator of a building demands relocation or rearrangement of plant and facilities used

in providing service therein.

The Company shall not be required to furnish, or continue to furnish, facilities or service where the circumstances are such that the proposed use of the facilities or service would tend to adversely affect the Company's plant, property, or service, at the sole discretion of the Company.

When service is desired to be removed from existing lines and facilities, or when abnormal and unusual arrangements and installations are desired, such service and installations may be subject to additional charges. Additionally, the Company reserves the right to determine the route and type of construction required to furnish service. Where the customer requests a type of construction different from that selected by the Company, a charge will be made to cover the excess cost of construction above that selected by the telephone company. All such charges are set forth in Section 2.13 of this Tariff.

The Company reserves the right to refuse an application for service made by a present or former customer who is indebted to the Company for service previously rendered until the indebtedness is satisfied, unless prohibited by law.

2.2 Use

2.2.1 Lawful Purpose

Services provided under this Tariff may be used for any lawful purpose for which the service is technically suited consistent with the transmission and switching parameters of the telecommunications facilities utilized in the provision of the service.

Company's services are provided subject to the condition that they will not be used for any unlawful and/or fraudulent purpose. Services will not be furnished if any law enforcement agency, acting within its jurisdiction, advises Company that such services are being used or are likely to be used in violation of the law and/or in a fraudulent manner. If Company receives other evidence giving reasonable cause to believe that such services are being used or are likely to be used for unlawful and/or fraudulent purposes, it may either discontinue or deny the services and/or refer the matter to the appropriate law enforcement agency in accordance with law and/or Commission rules.

2.2.2 Unauthorized Use

Any individual who uses or receives Company's services other than under the provisions of an accepted application for service and a current Customer relationship shall be liable for the appropriate rates and charges for the service received and for Company's costs of investigation and collection.

2.2.3 Recording Devices

Company's services are not designed for the use of recording devices, and customers who use such devices to record two-way telephone conversations do so at their own risk.

2.2.4 Use of Service Mark

No Customer shall use any service mark or trademark of Company or refer to Company in connection with any product, equipment promotion, or publication of the Customer without the prior written consent of Company.

2.3 Liability

Liability is detailed in the general Company Terms & Conditions which are available by visiting www.windstream.com, or by calling a service representative at 877-807-9463.

2.4 Equipment

2.4.1 Access, Inspection, Testing, and Adjustment

Upon notice, we may make tests and inspections to determine you are complying with the requirements of these terms, or for routine and emergency maintenance of the equipment and facilities. We may take action to protect our facilities and equipment. We may substitute, change, or rearrange any Equipment or facility at any time. Company may interrupt the service at any time, without penalty to itself, unless interruption exceeds twenty-four (24) hours.

2.4.2 Interference and Hazard

The operating characteristics of Customer premises equipment or communications systems connected to Company's services must not interfere with, or impair, any of the services offered by Company. Additionally, connected Customer premises equipment must not endanger the safety of Company employees or the public, damage or interfere with the proper functioning of Company's equipment, or otherwise injure the public in its use of Company's services.

2.4.3 Customer Liability

The Customer shall be responsible for changes or damages to Company's facilities used in the provision of regulated services caused by the Customer or those using Company's service through the Customer, whether the facilities involved are

Company's facilities or are facilities leased by Company from another party. The Customer may not physically modify or intrude upon, rearrange, disconnect, remove, or attempt to repair any of Company's facilities except upon written consent of Company and Company will pass on to the Customer any and all expenses that Company incurs or the owner of those facilities imposes

2.5 Contract for Service

2.5.1 General

Installation of certain services may require a contractual agreement between a Customer and Windstream.

2.5.2 Minimum Monthly Fee or Usage

The agreement may require the Customer to pay a minimum monthly fee ("MMF") or Minimum Usage ("MU") wherein the Customer agrees to pay for the duration of the term agreement, either the monthly recurring and usage charges, or the MMF amount and/or MU charges, whichever is greater.

Should the Customer choose to terminate its contract without cause prior to the agreed upon term, it will be liable for the MMF and the MU specified in the contract multiplied by the number of months remaining in the term, unless Customer converts to another service provided by the Company with equal or greater term and MMF and MU commitment. In the event neither the Company terminates the contract after it expires, then the Company shall continue to provide service to the Customer under the terms of the then applicable Tariff and the expired contract on a month-to-month basis.

2.6 Application for Service

2.6.1 General

The Company reserves the right to refuse service to any person requesting service, subject to applicable law.

2.6.2 Information Required

When applying for service, each prospective Customer will be required to furnish Company with the following information:

- A. The name of the party who will be responsible for payment for the service provided.

- B. The address or addresses or exact location of the premises where service is to be provided and billed.
- C. Any information required to make a proper determination of appropriate creditworthiness.

2.6.3 Initiation of Service

Service shall be deemed to be initiated upon the service activation date. For multi-location customers, service shall be deemed to be initiated upon service activation at the first location.

2.6.4 Temporary Service

When the Company renders temporary service to a Customer, the Customer may be required by the Company to bear the entire cost of installing and removing the service facilities.

2.6.5 Cancellations and Deferments of Service

When a Customer cancels or defers an order for service before the service is activated, a charge applies that will allow Company to recover its unrecovered costs, including but not limited to outside vendor charges, engineering, labor, materials, and equipment. Charges apply as follows:

2.6.5.1 Cancellation

The charge is equal to the unrecoverable costs incurred prior to the request for cancellation and the costs of removal, restoration, and disposal, if any, to comply with the cancellation. Those costs include, but are not limited to, costs of outside vendors, engineering, labor, nonrecoverable materials, and equipment expense.

2.6.5.2 Deferment of Start of Service

If a request for deferment of service is received by Company prior to the date an order for equipment or service is placed with Company's supplier, no charge shall apply. For deferments received by Company subsequent to the date the order for equipment or service is placed with Company's supplier, a monthly recurring charge based upon the costs incurred prior to the request for the deferment applies. This monthly rate shall be equal to the deferred investment multiplied by the monthly prime interest rate as announced by USBank plus recurring costs resulting directly from the deferral such as storage, taxes, etc.

In addition, any extraordinary nonrecurring costs resulting from the deferral, such as additional engineering, labor, and transportation, shall be billed in total. Billing shall start at the beginning of the month of deferral and extend to the start of service. Charges shall not exceed the monthly rate that would have applied had the service been established. Company will also charge the Customer who defers service any and all rates and charges incurred by Company for any leased facilities for which Company is held responsible. Company will make a good faith effort to minimize those rates and charges whenever possible.

2.7 Deposits

Deposits are detailed in the general Company Terms & Conditions which are available by visiting www.windstream.com, or by calling a service representative at 877-807-9463.

2.7.1 Account Handling Charge

Where permitted, an Account Handling Charge set forth in the Price List Attachment of this Tariff is assessed to a customer's account for each Company attempt to return an outstanding credit balance to the customer if a first mailing is returned undeliverable. This charge is for maintaining the account after the initial attempt and for each subsequent attempt. This charge will not be assessed more than twice a year.

2.8 Billing

The bill will contain all information required by state and federal regulatory agencies.

2.8.1 Monthly Billing

Bills to Customers will be issued monthly unless Company is authorized to bill at other than monthly intervals because of unusual circumstances. Local service charges, including installation charges, are billed in advance. Certain toll charges and NRCs are billed in arrears.

The Customer is responsible for all calls originating from the customer's premises and for all calls charged to the customer's line where any person answering the customer's line agrees to accept such charge. Company shall have no responsibility with respect to billings, charges, or disputes related to services used by the Customer which are not included in the services herein including, without limitation, any local, regional, and long-distance services provided by a third-party vendor. The Customer shall be fully responsible for the payment of any bills for such services and for the resolution of any disputes or discrepancies with the service provider.

2.8.2 Charges Based On Duration of Use

For any service offered by the Company, if the computed charge for a call includes a fraction of a cent, the fraction is rounded up to the next whole cent.

Exceptions: Special rounding arrangements may be made through contractual arrangements.

2.8.3 Bill Format Options

A Customer's invoice is presented electronically via the Internet with e-mail notification to the Customer. In addition, a summary with a remittance slip is presented on paper via standard mail. Both options are available at no charge to the Customer.

Should the Customer choose to receive by mail a detailed paper invoice in addition to the on-line invoice and summary, the Customer may be responsible for a monthly charge as indicated in the Price List Attachment, unless the state prohibits a charge for detailed paper invoices. Company may also charge for services that provide specific call detail information or other data not normally provided in the invoice and an additional service fee per copy or reprint requested.

2.9 Payment for Service

2.9.1 Collections and Late Payment Charges

Customer bills for telephone service are due on the due date specified on the bill. A customer is in default unless payment is made on or before the due date specified on the bill. No collection efforts other than the rendering of the bill shall be undertaken until the delinquency date.

If payment is not received by the due date listed on the bill, then a late payment collection fee may apply, as set forth in the Price List Attachment, in addition to a late payment charge of 1.5%, or the maximum late payment percentage permitted by state law, will also be applied to all amounts previously billed.

Customers shall be responsible for all costs incurred in the collection of unpaid charges or in any other action to enforce payments and/or obligations arising under this Tariff. Except where expressly prohibited by law, if Company initiates legal proceedings to collect any amount due hereunder and the Company substantially prevails in such proceedings, then the Customer shall pay the

reasonable attorneys' fees and costs incurred by Company in prosecuting such proceedings and any appeals therefrom

Company may also charge a bad check charge as set forth in the Price List Attachment, or the maximum permitted by applicable law, if a check tendered for payment is returned to Company as non-sufficient funds (NSF) or is not in acceptable form.

2.9.2 Partial Payment

If a Customer makes a partial payment in a timely manner and does not designate the service for which payment is made, the payment shall first be applied to the undisputed balance for local service, with the remainder applied on a pro rata basis to regulated utility services and toll service. Any remainder will then be applied to deregulated and unregulated services other than toll.

2.9.3 Taxes, Surcharges, and Fees

General

There shall be added to the customer's bills, as a separate item, an amount equal to the proportionate part of any license, occupation, franchise, or other similar fee or tax now or hereafter agreed to or imposed upon the Company by the State, Commonwealth, or local taxing authorities, whether imposed by statute, ordinance, franchise, or otherwise, and which fee or tax is based upon a percentage of the gross receipts, net receipts, or revenues of the Company. Such amount shall be added to bills of customers receiving service within the territorial limits of the taxing authority. Where more than one such fee or tax is imposed, each of the charges or taxes applicable to a customer shall be added to the customer's bill as separately identified items, unless otherwise permitted and subject to technological limitations. Any surcharges not prohibited from being passed through will also be assessed where applicable.

Administrative Services Fee ("ASF")

The Administrative Services Fee is a flat percentage monthly fee assessed to all monthly recurring charges (MRCs) to recover costs associated with a tariff or price list filings, collections, record maintenance, various state business licenses, various regulatory fees where applicable, general account servicing, and the administrative costs the Company incurs for local, state and federal governmental data gathering, record maintenance, and required reporting. This is not a tax or charge imposed by a governmental entity. The applicable percentage rate may vary. For the most current rate in effect, please refer to PAETEC Communications

FCC Tariff No. 3, Section 5.8, publicly posted at <https://www.windstream.com/tariffs>.

2.9.4 Convenience Fee

In the event a business Customer makes a one-time or recurring payment using a credit card, a Convenience Fee Charge may apply. Any payments for a deposit or advance payment to establish new service are excluded from the Convenience Fee Charge. This charge does not apply to residential Customers or to business Customers that make payment using their financial institution's bill payment service, Customers with negotiated contracts that do not allow the assessment of this fee, or Customers without a computer. This fee will be assessed at the point of payment and will not appear on the Customer's invoice.

2.10 Disputes and Complaints

Disputes and complaints are detailed in the general Company Terms & Conditions which are available by visiting www.windstream.com, or by calling a service representative at 877-807-9463.

2.11 Disconnection and Suspension

Disconnections, and suspensions will be handled pursuant to applicable state public utility laws, if any, and the general Company Terms & Conditions which are available by visiting www.windstream.com, or by calling a service representative at 877-807-9463.

2.12 Information Service Access Blocking

Where facilities are available, Company shall institute call blocking to all "900", "960" and "976" prefix numbers, without charge for the first block, subject to applicable law. If a customer chooses to eliminate the free call blocking service for these types of calls, the Customer shall be fully responsible for all such charges regardless of who made such calls from the Customer's telephone line. Company will comply with all applicable rules of the Commission, if any, concerning such blocking.

2.13 Special Construction and Special Arrangements

Subject to the agreement of the Company at its sole discretion, special construction and special arrangements may be undertaken on a reasonable effort basis at the request of the Customer. Special arrangements include any service or facility relating to a telecommunications service not otherwise specified under Tariff, or for the provision of service on an expedited basis or in some other manner different from the normal Company practices including, but not limited to, where facilities are not presently available, and there is no other requirements for the facilities so constructed; of a type

other than that which Company would normally utilize in the furnishing of its services; over a route other than that which Company would normally utilize in the furnishing of its services; in a quantity greater than that which Company would normally construct; on a temporary basis until permanent facilities are available; involving abnormal costs; in advance of its normal construction, etc.

Where Company furnishes a facility or service on a special construction basis, or any service for which a rate or charge is not specified in the Company's Tariff, charges, Company will disclose such charges to Customer and gain its approval for those charges prior to proceeding with the special construction. The agreement for special construction will ordinarily include a minimum service commitment based upon the estimated service life of the facilities provided.

2.14 Non-Routine Installation and Maintenance

At the Customer's request, installation and/or maintenance may be performed outside the Company's regular business hours or in hazardous locations. In such cases, charges based on cost of the labor, material, or other costs incurred by or charged to the Company will apply. If installation or maintenance is started during regular business hours but, at the Customer's request, extends beyond regular business hours into time periods including, but not limited to, weekends, holidays, and/or night hours, additional charges may apply. If the Customer reschedules or fails to show for an installation, additional charges may apply.

2.15 Telephone Numbers

The customer has no property right in the telephone number, nor any right to continuance of service through any particular Central Office (CO), and the Company may change the telephone number or CO designation of a customer, whenever it considers it desirable in the conduct of its business.

3.0 TDM Connectivity Charge

All Business Access Service options may be assessed a TDM Connectivity Charge. This is a monthly recurring charge assessed on services that rely on Time Division Multiplexing ("TDM") equipment and facilities in areas where an alternative Internet Protocol ("IP") based service exists. The amount of the charge is dependent upon the bandwidth capacity in use at a service location. The bandwidth capacity will be classified as 64kbps or 1.544Mbps.

	Monthly Recurring Charge	Maximum MRC
Per Circuit with 64kbps Bandwidth Capacity	\$50.00	\$300.00
Per Circuit with 1.544Mbps Bandwidth Capacity	\$300.00	\$800.00
